TERMINOLOGY NOTICE

The terminology used to describe people we serve has changed over time. The Minnesota Department of Human Services (DHS) supports the use of "People First" language

A. Policy on Basic and Supplemental Benefits, Emergency Foster Care Rate, Alternate Rates, Initial Clothing Allowance

Northstar Care for Children employs a two-part payment structure: Basic and Supplemental. The same rates apply to Northstar Foster Care (regular and Extended Foster Care, including youth in unlicensed supervised independent living settings), and to Northstar Adoption Assistance or Kinship Assistance. However, the alternate basic and supplemental rates are used in some cases for Northstar Adoption Assistance or Kinship Assistance. More details on Northstar Care may be found in the [Northstar Care General Practice Guide](#).

An initial clothing allowance is available based on the child's individual needs during the first 60 days of the child's initial placement into foster care.

1. Basic Amount Based on Age

A basic payment provides for a child's food, clothing, shelter, school supplies, personal incidentals, and daily supervision. It also includes typical travel to the child's home for visitation and reasonable travel for the child to remain in the school they were enrolled at the time of placement. The amount is set by a child's age, getting larger as the child gets older.

Except for children receiving Northstar Adoption Assistance who are determined to be at risk, all Northstar Care children receive a basic benefit. [Minnesota Statutes, sections 256N.02, subdivision 5 and 256N.26]

2. Supplemental Amount Based on MAPCY Assessment

A child may also be eligible for a supplemental payment.

Ordinarily, the MAPCY (Minnesota Assessment of Parenting for Children and Youth) assessment sets this supplemental payment amount by measuring the extra needs of a child and the parenting being provided to meet those needs. For details on the MAPCY assessment, please see the [Minnesota Assessment of Parenting for Children and Youth Practice Guide](#).

However, in the temporary absence of a MAPCY assessment, the supplemental amount may instead be based on the emergency foster care rate (see below).

Children receiving Northstar Adoption Assistance who are determined to be at risk are considered Level A and not eligible for supplemental payment. [Minnesota Statutes, sections 256N.02 subdivision 21; 256N.24; and 256N.26]

3. Supplemental Amount Based on the Emergency Foster Care Rate

As stated above, ordinarily, the MAPCY assessment sets the supplemental payment amount.

However, a default emergency foster care rate is available to county and tribal agencies without an approved MAPCY assessment. This default emergency foster care rate consists of Level D for supplemental plus the basic payment, and may only be used for up to 30 days of a child's continuous placement. An agency may decide to conduct an assessment at any time, replacing the emergency rate.

The emergency foster care rate may apply if **at least one** of the following conditions are met:

1. The child's initial placement is in foster care in Minnesota; or
2. The child's previous placement was more than two years ago; or
3. The child's previous placement was for fewer than 30 days and a MAPCY assessment was not completed.

When a child is receiving the emergency foster care rate and the MAPCY assessment is not yet approved within the first 30 days of continuous placement, the foster care supplemental drops to Level B on day 31 and remains at that level until an assessment is approved.

When a child is receiving the emergency foster care rate, the following occurs upon approval of the initial MAPCY assessment, with SSIS automatically adjusting the effective date if appropriate:

1. If the MAPCY is approved within or after the first 30 days and the supplemental level is greater than Level D, the higher rate will become effective back to the first date of placement; or
2. If the MAPCY is approved within the first 30 days and the supplemental level is lower than Level D, the lower rate will become effective the date of the approval; or
3. If the MAPCY is approved after the first 30 days and the amount is lower than Level D, the lower rate will become effective on the 31st date of placement.

[Minnesota Statutes, section 256N.26, subdivision 6]

4. Alternate Rates

For a child whose eligibility determination for Northstar Adoption Assistance or Northstar Kinship Assistance is begun while the child is age five or younger, alternate rates for pre-school entry apply. Alternate rates also apply to most children who received a commissioner transition from legacy Relative Custody Assistance (RCA) to Northstar Kinship Assistance.

The alternate rate is 50 percent of the amount that a child would receive if in foster care. The basic and supplemental rates are shown in the tables on pages 5-6 in the alternate rate columns. [Minnesota Statutes, sections 256N.26, subdivision 5 and 256N.28, subdivision 7]

5. Initial Clothing Allowance

An initial clothing allowance is available based on a child's individual needs during the first 60 days of a child's initial placement into foster care. The county or tribal social service agency shall approve the initial clothing allowance consistent with a child's needs. The initial clothing allowance must not exceed the monthly basic payment rate for a child's age group. [Minnesota Statutes, section 260C.4413]

B. Basic and Supplemental Rates, Initial Clothing Allowance

1. Basic Rates and Supplemental Rates

Minnesota Statute calls for revision of basic and supplemental rates based on changes in the USDA *Estimates of the Cost of Raising a Child*. This is the same process that was previously used for adjusting foster care rates prior to Northstar Care.

At various times the USDA re-bases these rates and the Consumer Price Index (CPI) is used in between these times. The rates have not been released, so the SFY 2019 Supplemental Rates have been based using information from the CPI. When the new *Estimates of the Cost of Raising a Child* are available, if needed, adjustments will be made to rates for future years.

Please see the tables on pages 5-6 for the revised rates effective July 1, 2018.

The Northstar Care Fiscal Reconciliation process already takes into account ordinary rate adjustments such as these. The process makes use of the nonfederal share of historical county and tribal foster care payments as part of the First Fundamental Calculation. The process routinely trends forward the nonfederal share of these county and tribal foster care payments, and these prior trends already had similar historical rate increases built into them. [2016 Minnesota Laws, Chapter 189, Article 15, section 4; Minnesota Statutes, sections 256N.20, subdivision 5; 256N.26, subdivisions 4, 5 and 9; and 256N.27]

2. Initial Clothing Allowance

The initial clothing allowance must not exceed the monthly basic payment rate for a child's age group. The Department has revised the initial clothing allowance maximums on page 7 accordingly. [Minnesota Statutes, section 260C.4413]

C. Revised Rate and Allowance Tables

The following tables show rates and allowance maximums **effective July 1, 2018 through June 30, 2019**. [Minnesota Statutes, section 256N.26, section 260C.4413]
